

# The Complete Dispense-System from Franke – Powerful and Maintenance-Free for New Markets

The perfect solution  
for bistros, snack-bars and catering

# Create additional markets and product opportunities

Easy Draft Professional is a completely self contained system that guarantees the highest quality draft beer for the most discerning customer. Develop new market areas without expensive dispensing equipment, setup or complicated maintenance programs.

The Franke innovative Easy Draft technology provides efficient keg handling and processing in the brewery and the customers retail business.

## Easy for your partners

### Innovative tapping technology

- integrated CO<sub>2</sub> supply
- built-in pressure reducer

### Extremely easy and safe to use

- simply plug in the Easy Tap
- instant quality tapping
- fast cooling from 20°C to 7°C in about one hour

### Handling advantages

- powerful, self-adjusting cooler
- maintenance-free dispense-system
- reusable or disposable Easy Tap

## Easy for the brewery

### Logistic and technical advantages

- a regular keg processing line can be used for cleaning and filling
- CO<sub>2</sub> is filled in via a central valve

### Quality and hygiene advantages

- hygienically packaged disposable Easy Tap
- keg comes with built-in valve and compensator technology

### Marketing advantages

- your logo in the display area provides brand awareness and product loyalty
- improve customer relations, sales and profits
- the perfect solution for product launches and promotional activities
- great for seasonal beer promotions and the latest trend beer
